AUGUSTA BANKS HIT HARD BY ALEXANDER

Liabilities of Cotton Firm Cause Amazement.

SEVERAL BANKS ARE TOUCHED

Much Sympathy Is Expressed for Bishop Alexander, Who Knew Nothing of Brother's Operations—Tom Alexander Reported in New York.

Augusta, Ga., July 14.—Revelation of the financial embarrassment of the firm of cotton factors of Alexander & Alexander, one of the largest in the state, develops discrepancies of about $1,000,000, following the disappearance of Thomas W. Alexander, head of the firm, and member of one of the most prominent families in Georgia.

Mr. Alexander left Augusta Saturday, after borrowing $200 from a friend, saying that he was going to New York. The following night his brother, Bishop Alexander, the junior member of the firm, received a telegram from him asking that his office safe be opened and three letters found there be delivered. One of the letters was to his partner, in which a statement was made of the financial embarrassment of the firm and saying that if Mr. Alexander was not back in Augusta by Wednesday, he would never be seen again. Another letter was addressed to a local cotton factor president, and a third to Mr. Alexander's wife.

The manner in which the money was secured has not been made known by the three banks who are the losers, except that it was in the shape of loans. The Georgia Railroad bank sustains a loss of $115,000, which was charged off its books and charged to the surplus and undivided profits accounts. The National Bank of Augusta loses $7,000, and the National Exchange bank $2,000.

The available assets of the firm amount to about $80,000, while the personal liabilities of T. W. Alexander, in addition to the amount of loans, is about $20,000.

In his leters T. W. Alexander states that he alone is responsible, that his brother knew nothing of the financial end of the business, and had nothing to do with it. Much sympathy is expressd for his brother.

frequent and Mr. Ferguson was obviously annoyed by them.

The mystery surrounding the arrest on Wednesday last of a man giving the name of "B. F. McElroy," was cleared when it was explained that he had offered to sell to Attorney John Marron, one of Hartje's counsel, five leters alleged to have been writen by Coachman Madine to Mrs. Hartje.

Hazel Sweeting, age 11.
Gladys Sweeting, age 10.
Josie Sweeting, age 12.
Ruth Coyle, age 11, of Sioux City.
Clara Usher, age 16.

The Sweeting children lived with their father near Ellis park in the outskirts of the city. Clara Usher was the daughter of Sweeting's housekeeper, and the Coyle children were nieces, who were here on a visit.

Ruth Kiersey, the only survivor, said they were waiting, when little Lucile Sweeting slipped into a deep hole. Hazel Sweeting rushed after her, slipping into the hole, then the next girl rushed after her, and so they kept trying to save each other until all of the girls except Ruth Kiersey had been drowned. She then ran home and gave the alarm.

Four of the bodies were quickly removed from the water, but it was too late to resuscitate them.

At 4 o'clock in the evening all of the bodies had been recovered, except that of Clara Usher.

They Were To Be Used Against the Italian King.

Rome, Italy, July 14.—Three more bombs were found Thursday at Ancona, where on June 29th the police discovered in the house of a barber named Gabbanelli a quantity of explosives in the process of manufacture and three completed bombs. In consequence of the earlier discovery King Victor Emmanuel abandoned his intention to go to Ancona early in June to lay the corner stone of a new hospital.

Since that time the police have maintained vigilance in searching for further evidence to establish their theory that there existed at Ancona a plot against the life of the king and this was rewarded by the finding of three bombs in the house of Amillate Perotti. Perotti, however, declared that the bombs were intended for killing fish, and as he had been once condemned for illegally killing fish with dynamite, his explanation is regarded by the authorities as a plausible one.

TELEPHONE EXTENSION.

Southern Bell Will Extend Its Lines to Various Points in City.

The Southern Bell Telephone and Telegraph Company expect to increase their already handsome business in this territory, and with that view the company has sent from Atlanta W. H. [illegible], general sub-license agent, and [illegible] Blair, one of the valued employes of the construction department, to look after their interests here.

Through the energy of this company people have been enabled to use the phone correspondence to all principal points in the country, which is a convenience enjoyed only by important points. This is alone a guarantee that Gainesville is looked upon by the outside world as one of the principal cities of Florida, only a few of whom enjoy these privileges.

The business of the Southern Bell has been extended to such proportions that it has become necessary to extend its lines in this vicinity, and it is for that purpose the representatives of this company are here. They propose to give the public the best service possible, and a service that will be appreciated.

From what we can understand of the sub-license contract of the Southern Bell, this company offers to the independent operating companies a fine proposition, for it has made it possible for the independent companies to obtain the benefit of the vast long-distance system of the Southern Bell without concession, but merely on a co-operative plan, for the convenience of patrons of both companies. There are at present more than 220 different companies, representing about 30,000 stations, on this list.

MOOTY DOING WELL.

Young Man Who Fell from Telegraph Pole is Resting Easily.

Lawson Mooty, the lineman in the employ of the Western Union Telegraph Company who had the misfortune to sustain a broken jawbone and other bruises as the result of a fall from a pole, is resting as easily as could be expected, reports his physician, J. M. Dell.

It is learned that Mr. Mooty did not fall on account of a decayed cross-bar, as was at first reported, but the pole "careened," which threw the man to the ground.

Mr. Mooty is at the National Odd Fellows' Sanitarium, where he is receiving the best attention. His friends hope to see him out in a few days.

Letter to H. S. Taylor,

Gainesville, Fla.

Dear Sir: A big mill owner, Spartansburg, S. C., wanted 5,000 gallons of paint, and bought by price; paid 5 cents less than ours; got a "lead-and-zinc" paint; but the lead was sulphate of lead, not carbonate. Sulphate costs about half; and covers about half.

That paint was adulterated about six times as much as the 5 cents paid for. He "saved" 5 cents; and it cost him 30.

Oh no; it cost him more than that; we forgot the labor. Can't work it out exactly; don't know how long it'll wear.

Short measure besides; that alone was twice as much as his "saving" 5 cents.

It was thin, too; some loss there; don't know how much.

There was too much dryer in it. The maker made something on that; he didn't.

Taking it altogether, he didn't make much by that 5 cents.

Go by the name; and the name is Devoe lead-and-zinc.

Yours truly,
F. W. Devoe & Co.,
New York.

P. S.: The S. J. Thompe Co. sell our paint.

In any given thing you have no right to condemn a person unless you are supremely better than they in that particular.

Though long delayed, justice has at last been done Capt. Dreyfus, the French army officer who was the victim of one of the vilest conspiracies ever perpetrated upon a human being. Unjustly convicted and subjected to the most humiliating degradation his persecutors could conceive of, it is surprising that he has lived to see his innocence proven and his honor vindicated by the annulment of the proceedings of the court which tried his case. He has been restored to all civil rights and his rank as captain by the supreme court, and the verdict ordered published in fifty newspapers to be selected by him. Capt. Dreyfus' devoted wife has stood by him throughout his trying ordeal.

A certain boy matriculated in one of the universities of the South. He was poorly clad. When this boy paid his board, tuition, and the price of second-hand books, he had just $5 left. At the end of the fourth year he took the "A. B." degree, and the next year the "A. M." degree. His poor, old widowed mother sold one of the plow-horses to pay him through the fifth year. But at the end of that year he sat among the graduates--dressed in plain brown linen coat and pants, and no vest. But he was the honor graduate and at the head of the class. When a beautiful gold medal was handed to him, he stepped from the rostum and walked straight to the back of the room, where, right by the door, sat a homely old woman in black, and tied the blue ribbon with the great glittering medal around her neck. She buried her wrinkled face in her old, drawn hands and wept like a child. It seemed the applause would never die away. And now he is a corporation counsel at $6,000 a year, his mother sits happily in the gloamings of a beyond, and the picture of her noble son hangs on the walls of his alma mater.

ITALIANS WILL HARDLY DO.

At Jacksonville a manufacturer of naval stores and lumber has been held to answer to the United States Grand Jury on the charge of peonage. It was claimed by the Government that the defendant had instructed the foreman to hold a number of Italians who had been imported from New York and to force them to work until they had at least paid to the company the cost of their transportation, which was specified in the contract. The evidence was to the effect that the foreman had followed the men from the mill, overtaken them and by force compelled them to return to work. When the men did get away, they went to Jacksonville and preferred charges of peonage.

This is only another lesson to the employers of labor in this State. It is evidence that the Italian is not a trustworthy, honest, nor faithful kind o' a laborer to have about the place. This has been demonstrated in the past, when some of the manufacturers of lumber or of naval stores have made an effort to work this character of labor in this State. It has been made evident that the Italians are not the kind of people to have in Florida, and that they cared as little for their obligations as they do for cleanliness. It is true that the Italian as a rule is a pretty good class of citizen. But that is not the class we have been able to import as common laborers to this State. They are, as a rule, the riff raff and constitute a class which have been employed on the railroads and who are not thrifty or industrious.

Some of those who have made an effort to employ the Italians who are brought to this State say that they are given to making trouble wherever they go. At Dowling Park, where a lumber man endeavored to get a large number of them to work, they commenced upon their arrival to make trouble and would only work when they felt like it. The gentleman who employed them says they would not do, and he at once paid them off and cast them adrift. They returned to New York and said, as they were leaving, that they did not like the character of the work here nor the climate.

All this demonstrates that there will have to be another class of laborers given a trial. The negro is passing away from the mill, the farm and the still. It is only a question of a few years when it will be impossible to carry on the various industries of the South unless more labor has been imported. But in the meantime the labor question is a problem, and will continue to be for some time to come.

SUNBEAMS

Professional politics is the great American game.

At last, character never rises above the plane of its thought.

Both are evils, but the moneyless man is better than the friendless man.

Work is as essential as breathing, and under normal conditions is as joyous.

Down with the muck-raker who defames in order that he may create a market for his goods.

Love demands some sort of secrecy. Otherwise it shrivels to the mere play of passing acquaintance.

The shadow reports true of the substance. There are no doubtful foreshadowing of your inner self.

Don't be so fussy about your life-plans. The electric plant is ponderous and powerful, yet noiseless.

Self-confidence keeps all the finer forces, as the blacksmith's bellows keep the flames burning on the forge.

The "yellow peril" is here now. It is gold that makes life perilous, and the heart's history a supreme tragedy.

A certain woman joined "The Don't Worry Club," and then worried herself almost to death about the payment of dues.

Man toils until his eyes are sunken, and his countenance is all pinched with care. He has chosen immolation on a cross of gold.

Silks are never so gorgeous, nor linen never so fine, as to make less hideous the sin of the human heart. Exit--White and the "den."

The other day Senator Elkins said: "A man may chase dollars and get happiness, but the trouble comes when dollars begin to chase him." That's so!

It would be terrible if the veil should be drawn from the modern heart. The Thaw-White tragedy uncovered the hiding places of the rich "Cave Dwellers."

It is one thing for a man to use money--it is another thing for money to use a man. The former is a contented soul; the latter, a slavish vassal.

San Francisco and China-town! New York and the millionaire's "den!" One, the slime and degradation of underground tunnels; the other, the enthralling beauty and magnificence of "an upper chamber." Who can say this is the better? Who can say that is the worse?

We are fast becoming a race of globe trotters. We leave the solitudes of the Rockies--our Switzerland, the Hudson and the Columbia--our Rhine, to see the reputed grandeurs in distant places. Its the fad we're chasing--not the country and its glories.

The daily wage of honest toil is the unit in legitimate wealth. The Rockefeller estate is now at the billion mark. If Uncle John D. were an honest toiler, getting one thousand ($1,000) every day, he'd have to work about 2,778 long years to amass his fabulous wealth. In other words, had he started 872 years before Jesus Christ was born, and got $1,000 a day until now, he would have just reached his present wealth. Its too dazzling to be honest.

In this age you can't be happy unless you take on more than the mere "wage thought." Emerson, who is coming more and more each day into his own, never wrote a line with the fear of poverty scourging or the greed of gold urging. His first book took about thirteen years to sell the first edition; but still he kept on working as the wild vine keeps on blushing into grapes whether the eye of man sees or not, whether or not the hand of man gathers.

Some people live much in the past. Their traditions are those of the long ago. Their ideals are those of the fathers. The books they read are old and musty. They know of kings whose crowns have melted, and generals whose swords have rusted, and admirals whose ships have foundered, and knightly heroes whose luster has faded, and empires which centuries ago went down. To the present their eyes are closed. To the present their ears are dead. From the present they turn with impatience and disgust.

...BY CLOUDBURST AND LANDSLIDE

Many Mexicans Were Killed and Injured—Americans Aid Victims.

El Paso, Tex., July 14.—A cloudburst and landslide at Ocampo (Jesus Maria), Chihuahua, Mex., almost completely destroyed the city, and killed seven or more persons. Many others were injured, and it is suspected some of them will die. All the killed and injured are Mexicans.

The American residents are alleviating the suffering of the wounded, and are recovering the bodies of the dead as rapidly as possible.

Robert Brooks, general manager of the W. C. Greene Gold and Silver company, at Ocampo, is in charge and is handling matters satisfactorily.

The Greene company's office and corral were swept away, but all its American employes escaped. The company's loss is estimated at $5,000.

The Watterson company suffered a loss of about $15,000, its reduction works and offices being destroyed.

News of the disaster reached El Paso Thursday in a telegram to W. C. Greene's office in this city.

H. CLAY EVANS READS TICKET.

Nominated by the Tennessee Republicans for Governor.

Nashville, Tenn., July 14.—Henry C. Evans, of Hamilton county, former commissioner of pension and recently American consul general at London, was nominated for governor by the Republican state convention Thursday night. D. C. Swab, of Claiborne county, was nominated for railroad commissioner.

The nomination of Evans for governor came after a most exciting session and marks the transfer of Republican leadership in Tennessee from Congressman Walter P. Brownlow, of the first district, to Mr. Evans. Factional differences arising from rivalry between these two have been sharp at times and served to accentuate interest in the convention. Harmony was indicated this morning when Mr. Brownlow declared he would not oppose the Evans candidate for permanent chairman, and the temporary organization, with T. Asbury Wright presiding, was quietly effected.

Then came long waits for the committee on credentials, and the storm broke over its report. There was a division over some of the contested counties and the attempts of each faction to seat its choice soon changed the convention into a howling mob. Delegates crowded the speaker's stand, ran over the press tables and threatened to engage in fist fights. Quiet finally being restored, the contests were taken up separately and arguments heard. The roll call soon showed the Evans men in the ascendency and the Evans report as a whole was at length adopted on motion of a Brownlow man, the result arousing a wild demonstration. Then the report of the committee on permanent organization, naming Congressman Nathan W. Hale, for chairman, was adopted and the remaining business of the convention quickly and harmoniously dispatched. Mr. Evans' appearance before the convention was the signal for frenzied demonstration.

APPEARING OLD

Acts as a Bar to Profitable Employment.

You cannot afford to grow old.

In these days of strenuous competition it is necessary to maintain, as long as possible ones youthful appearance.

It is impossible to do this without retaining a luxurious growth of hair.

The presence of Dandruff indicates the presence of a burrowing germ which lives and thrives on the roots of the hair until it causes total baldness.

Newbro's Herpicide is the only known destroyer of this pest, and it is as effective as it is delightful to use.

Herpicide makes an elegant hair dressing as well as Dandruff cure.

Accept no substitute—there is none.

SORES That REFUSE TO HEAL

There is no surer evidence of a poisonous, polluted condition of the blood than that manifested by a sore that refuses to heal. Every symptom suggests pollution; the discharge, the red, angry flesh, the inflammation and discoloration of surrounding parts all show that the ulcer is kept open by a constant drainage through it, of impurities from the blood.

When the blood is pure and healthy any cut, bruise or wound will heal readily; when from any cause, however, the blood has become infected with germs or poisons the place becomes a sore or ulcer, sometimes scabbing over, but never fully healing, because it is kept irritated and inflamed by the impurities in this vital fluid. Often the rough handling of a wart, mole or pimple which has never shown any sign of trouble, a slight scratch or abrasion of the skin or insignificant hurt of any character will become a sore that refuses to heal, and remains for years, eating into the surrounding flesh, resisting treatment and sometimes terminating in Cancer.

I want to recommend your S. S. S to any who are in need of a remedy for an old sore. In 1877 I had my leg badly cut by a barrel hoop and having on a blue woolen stocking my leg was badly poisoned from the dye. A great sore formed and for years no one knows what I suffered with the place. Nothing would heal the ulcer and I thought I would have to go through life with a discharging, angry sore on my leg. A short while ago I commenced to use S. S. S. and I soon saw that the place was improving. I continued the use of it until my leg was entirely healed and I am now a well man.

JNO. ELLIS.
250 Navy St., Brooklyn, N. Y.

I had a large sore or ulcer on my face and nothing that I tried would benefit me. It began with shooting pains and soon the itching was terrible. At first it discharged a watery fluid which changed to a thicker composition and the pain was very severe. It was nearly as large as a dollar and terribly inflamed in all the surrounding parts. It had been there so long and growing worse all the time, I became very much discouraged and alarmed. At last I began the use of S. S. S. At first the ulcer seemed to get worse, but soon I noted an improvement and continued its use until it was entirely cured.

MRS. W. A. WRIGHT.
Gary, Fla.

The poison in the blood may be the remains of some constitutional disease, the effects of a long spell of sickness leaving disease germs in the system, or the absorption of refuse matters of the body which have not been properly expelled through the channels of bodily waste. But whatever the cause the vitality and purity of the blood is so weakened and polluted that it cannot properly nourish the system, and the sore or ulcer is kept up.

Those most usually afflicted with chronic sores and ulcers are persons who have reached or passed middle life; the vitality of the blood and strength of the system have naturally begun to weaken and the poisons in the blood which perhaps have been inherited and lain dormant in the system for years cannot be as effectually held in check as in early life when the system was strong and vigorous. While the old or middle-aged are the usual sufferers, the young are not exempt if the blood becomes infected with the germs.

Salves, plasters, lotions, etc., cannot cure old sores and ulcers because they do not reach the seat of the trouble. Such treatment keeps the place clean, relieves pain and perhaps reduces the inflammation, and in this way is beneficial, but can never permanently heal them. The only treatment that can do any permanent good is a competent blood purifier, one that goes to the very root of the trouble and removes the cause, and for this purpose nothing has ever been found to equal S. S. S. It goes down to the very fountain-head of the disease, drives out all poison and morbid matter, builds up the weak, sluggish blood, gives energy and strength to the entire system, and allows the sore to heal naturally and permanently. S. S. S. is purely vegetable, being made of roots, herbs and barks possessing cleansing, healing properties, and is not only the King of blood purifiers, but the greatest of all tonics. If you have a sore that is slow in healing do not waste time with external treatment nor experiment with unknown medicines, but begin the use of S. S. S. and by removing every vestige of the cause, cure the trouble permanently. Special book on sores and ulcers and any medical advice desired furnished without charge to all who write.

Feel Impending Doom.

It will cure incipient Bright's disease and diabetes, and even in the worst cases gives comfort and relief. Slight disorders are cured in a few days.
